(John) Gordon Hepburn

In compliance with Gordon’s wishes and in the presence of his closest friends and family members, Gordon was administered end of life by MAID on Tuesday, August 8th, 2023, ending his perseverance fighting Lewy Body Dementia.

Gordon will always be remembered by friends and family for the twinkle in his eye, his sense of humour, his gifts with words and languages and being able to fix almost anything. And with a cup of coffee in his hand, either talking politics or doing the cryptic crossword.

Condolences may be offered to the family below.
