

Beth Kazakoff

Beth passed away peacefully in her home surrounded by love. Beth was an independent thinker, loved her home and was a trailblazer for being one of the first women in the Air Force to being one of the first women Accountants while being a single mother before it became common. Beth was also very practical and set herself up for her retirement in Victoria which turned out to be much longer than she expected and the best years of her life. In Victoria, she touched many people through her volunteer work with the MS Society, Goward House, and her walking group. Beth thought her way was the best and I do believe she was most often right.

Beth is survived by her brother Bruce (Betty) and son David.

As per her wishes, there will be no Service.

Condolences may be offered to the family below.
