

Christopher McDonald Adams

The family of Christopher McDonald Adams is sad to announce his sudden passing on November 30, 2015 at the age of 60. His death was caused by a rare form of leukemia. Chris, as he was known to all, was born in Montreal. He was predeceased by his father, Dr. Robert McDonald Adams, and his mother, Gerda Caroline Adams.

His father was a federal civil servant, so he lived in many places including Brussels, San Francisco and Ottawa. Eventually he settled in Calgary where he attended the Southern Alberta Institute of Technology and received his diploma in petroleum technology. During this time and for many years after, he was the announcer for the SAIT Trojans hockey team. For this effort, he was given the Al Bohonus Recognition Award for his special contribution to college sport in Alberta. After graduation Chris worked for the National Energy Board in Calgary for a number of years, and then about ten years ago, he moved to Victoria as an oil and gas specialist with the BC Ministry of Natural Gas Development and worked with them until his death.

Chris is survived by his sister Laura of Port Angeles, Washington, Aunt Lottie Efird of North Carolina, his Uncle and Aunt Paul and Velma Adams of Alberta and several cousins in British Columbia, Alberta, the East Coast and the United States. He leaves behind a multitude of dear, life-long friends.

The family wishes to thank the medical team at the Royal Jubilee Hospital for their incredibly compassionate care. Although it was a shock to lose Chris so quickly their level of attention was outstanding.

A celebration of Chris' life will be held on Saturday December 5, 2015 at 2:30 p.m. at McCall's Funeral Home, 1400 Vancouver

Street, Victoria B.C. Flowers are gratefully declined.
Charitable donations in Chris' memory may be made to the
Leukemia Foundation of Canada.

Christopher touched so many lives with kindness and his
presence will never be replaced. Condolences may be offered
to the family below.
