

Ian David Smirke

Ian fought his illness with courage and fortitude but in his own way. It did not prevent him from pursuing his deep interest in humanity and his concern for the environment. He was never without his camera, recording life in all its forms, pictures that he hoped would illustrate his writings on the complexities and beauty that surround us. Survived by his mother, Shirley and sister, Pamela. Predeceased by his father, David and brother, Murray.

Condolences may be offered to the family below.
